

ISO 27001:2013 ISO 27701:2019 Bridge Letter

1 March 2022

Appropriate Solutions, Inc. (ASI) endeavors to comply with industry security standards. ASI uses the ISO 27701:2013 and ISO 27701:2019 standards to examine and certify our Information Security Management System.

We are in the process of working with our auditors to renew this certification but were unable to fully finish the recertification process before the current certificate's expiry date of 8 March 2022. We are in the process of addressing two reported Minor Nonconformities.

As always, the Information Security Management System remains fully in place. All the processes outlined in our security framework continue to be performed.

Thank you for your patience.

Raymond GA Côté
